## Procédure d'installation de Proxmox

1) Téléchargez la version la plus récente de Proxmox depuis le site officiel.

The screenshot shows the Proxmox website's download page for Proxmox VE 8.2. The page features the Proxmox logo at the top left and a navigation menu. The main heading is "Programme d'installation ISO de Proxmox VE 8.2". Below this, there is a table with details about the ISO file: Version 8.2-2, SHA256SUMME, and Taille du fichier 1,39 Go. A red box highlights the "Télécharger" button, with a red arrow pointing to it from the right. Below the table, there are "Notes de version" and a "Remarque" section. At the bottom, there are sections for "Produits", "Ressources", and "Bulletin".

Version	Taille du fichier	Dernière mise à jour
8.2-2	1,39 Go	22 août 2024

SHA256SUMME

## Procédure d'installation de Proxmox

3) Acceptez les termes de la licence pour commencer la configuration.

**END USER LICENSE AGREEMENT (EULA)**

END USER LICENSE AGREEMENT (EULA) FOR PROXMOX VIRTUAL ENVIRONMENT (PROXMOX VE)

By using Proxmox VE software you agree that you accept this EULA, and that you have read and understand the terms and conditions. This also applies for individuals acting on behalf of entities. This EULA does not provide any rights to Support Subscriptions Services as software maintenance, updates and support. Please review the Support Subscriptions Agreements for these terms and conditions. The EULA applies to any version of Proxmox VE and any related update, source code and structure (the Programs), regardless of the delivery mechanism.

1. License. Proxmox Server Solutions GmbH (Proxmox) grants to you a perpetual, worldwide license to the Programs pursuant to the GNU Affero General Public License V3. The license agreement for each component is located in the software component's source code and permits you to run, copy, modify, and redistribute the software component (certain obligations in some cases), both in source code and binary code forms, with the exception of certain binary only firmware components and the Proxmox images (e.g. Proxmox logo). The license rights for the binary only firmware components are located within the components. This EULA pertains solely to the Programs and does not limit your rights under, or grant you rights that supersede, the license terms of any particular component.

2. Limited Warranty. The Programs and the components are provided and licensed "as is" without warranty of any kind, expressed or implied, including the implied warranties of merchantability, non-infringement or fitness for a particular purpose. Neither Proxmox nor its affiliates warrants that the functions contained in the Programs will meet your requirements or that the operation of the Programs will be entirely error free, appear or perform precisely as described in the accompanying documentation, or comply with regulatory requirements.

3. Limitation of Liability. To the maximum extent permitted under applicable law, under no

4) Sélectionnez le disque sur lequel installer Proxmox. Normalement, aucun ajustement n'est nécessaire sur cet écran. Ensuite, appuyez sur "Next".

**Proxmox Virtual Environment (PVE)**

**The Proxmox Installer** automatically partitions your hard disk. It installs all required packages and makes the system bootable from the hard disk. All existing partitions and data will be lost.

Press the Next button to continue the installation.

- **Please verify the installation target**  
The displayed hard disk will be used for the installation.  
Warning: All existing partitions and data will be lost.
- **Automatic hardware detection**  
The installer automatically configures your hardware.
- **Graphical user interface**  
Final configuration will be done on the graphical user interface, via a web browser.

## Procédure d'installation de Proxmox

9) Une fois l'installation terminée, cliquez sur "Reboot".

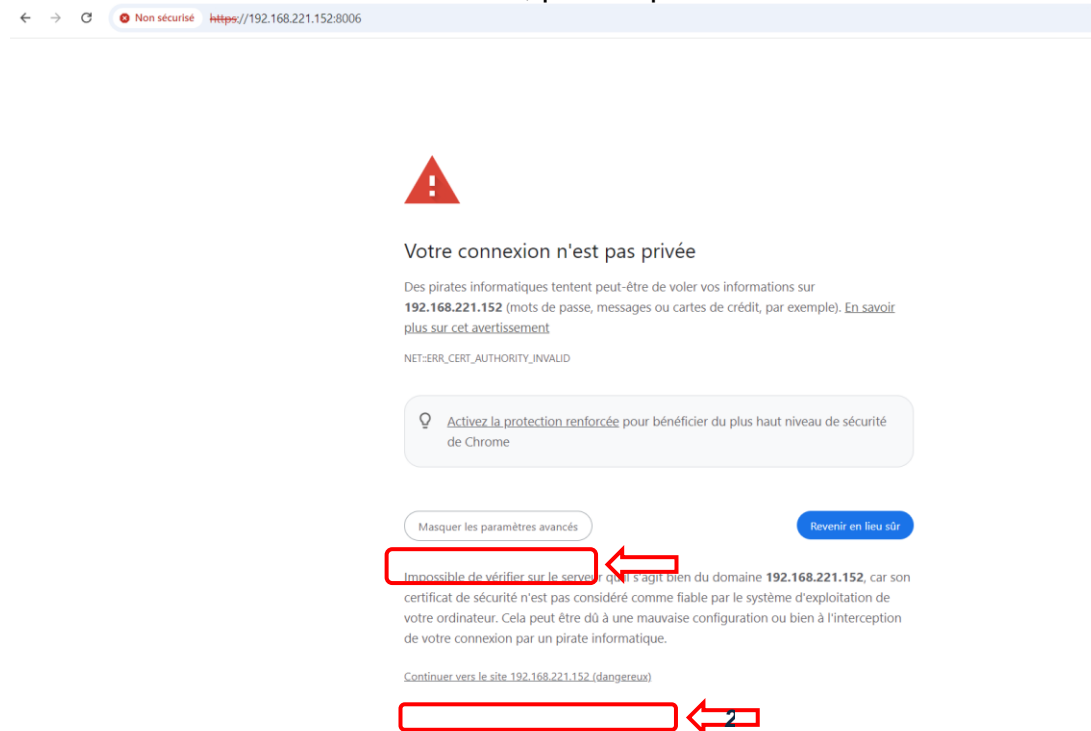

10) Une fois la machine redémarrée, cet écran s'affiche. Connectez-vous à l'interface d'administration de votre Proxmox via un navigateur web en saisissant l'adresse suivante : https://IP\_DU\_PC:8006.

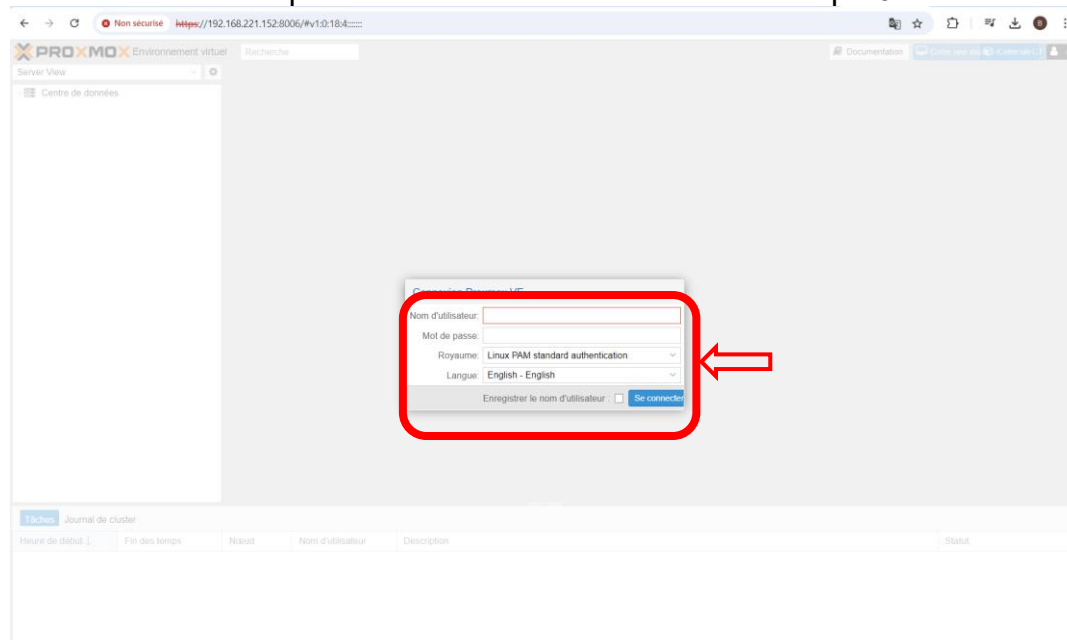

## Procédure d'installation de Proxmox

11) Lors de la première connexion, un message d'alerte de votre navigateur s'affichera. Celui-ci est dû à l'absence de certificat sur votre serveur. Cependant, étant donné que vous êtes sur votre réseau local, la connexion est sécurisée. Cliquez simplement sur le bouton "Paramètres avancés" pour afficher le lien de connexion "Continuer vers le site ...", puis cliquez dessus.

12) Il est temps de se connecter. Utilisez "root" comme nom d'utilisateur, puis saisissez le mot de passe défini lors de l'installation à l'étape 6.
